

REUIM: REAL ESTATE AND URBAN INFRASTRUCTURE MANAGEMENT

National Institute of Construction Management and Research

CLASS OF 2010-12

PGP REUIM is a 2 year residential programme for degree holders. The inter-disciplinary programme builds upon the concepts and methodologies of management, engineering, architecture, law, information technology, urban economics and behavioural sciences and combines theory with practice. The curriculum is a blend of theoretical and applied courses focussing on the areas of real estate and urban infrastructure management. The objective of the PGP REUIM is to develop a professional techno-managerial leader with the potential to manage real estate and urban infrastructure projects and organizations national and internationally. Contributing to the overall organization, this programme helps in developing core skills in Land Acquisition and Management, Material & Equipment Management, Valuation, Legal Aspects of Real Estate, GIS in Real Estate and Urban Infrastructure, and many more.
