BACHELOR OF ARCHITECTURE

INTRODUCTION

NICMAR was established as an autonomous, non-government, not-for-profit academic body, founded in September, 1983 as a Society and a Public Charitable Trust. Also, NICMAR University, Pune (NUP), supported by the trust is now recognised as State Private University by the University Grants Commission. NICMAR University Pune Act (L. C. Bill No. of 2022) was passed by Maharashtra State Government on 16th March, 2022 and appeared in "Maharashtra Government Gazette" on 12th May 2022 (Mah. Act No. XXXVI of 2022).

NICMAR University, Pune (NUP), draws its pedagogy from the mindful perception of the syllabi of pioneering Architectural Institutions in India, bearing in mind the contemporary changes that would have to eventually be adopted, in wake of the era of the national education reforms in the country.

Architecture is a Meta discipline, a critical attitude, not merely an empirical discipline like engineering that needs/seeks/works with data. Nevertheless, architecture deals with fundamental issues of users, cities and societies, and not only materials, processes and aesthetics. It questions the presumed, and seeks new and contemporary meanings.

There is a need for redefining the perception of Architectural education today. A student of architecture is not only a learner, but also a producer of knowledge. The student's tools include a critical, evaluative, conceptual mind, the ability to interconnect concepts/ facts, to use theory and argument and seek a higher level of explanation in the process of learning and its application to design. The student's initial challenges shall be to differentiate between objective and accepted reality, to appreciate architecture as a cultural process, and to perceive change as a series of discontinuities, more than cause/effect transitions. Only then can the student become relevant in today's world rather than mindlessly repeat the dogma of the past.

VISION AND MISSION

Vision

NICMAR University's School of Architecture & Planning aims to develop architects equipped with comprehensive domain knowledge and technical skills, and at the same time professionals who are sensitive to the socio-cultural and ecological concerns of the built environment. The graduates of the school would play leading roles in creating and managing sustainable built environments in India and globally through excellence in creativity, critical thinking, knowledge, professional skills, and capabilities.

Mission

1. To develop essential visualisation and representation skills in students relevant to the current architectural profession.
2. To sensitise students to the global concerns of urban environment and encourage them to think of creative solutions guided by the principles of sustainability and resilience.
3. To impart innovative and community focused-education to train new-generation professionals competent in immensely complex and challenging built environments in the present context.
4. To inculcate professional ethics, values and entrepreneurial attitude addressing the needs of industry and society.

PROGRAMME OBJECTIVES

The programme aims:

- To impart a critical understanding of human habitat by sensitising the students to various socio-cultural, political and environmental factors that shape it.
- To inculcate design values and principles which enable the conceptualisation of an architectural project.
- To develop the skills of visualization, representation and communication which assist in handling the complexity that the profession demands.

PROGRAMME HIGHLIGHTS

The B-Arch programme has a curriculum design that broadly falls under the following streams:

1. **Professional Core (PC) Course:** A course which should compulsorily be studied by a candidate as a core requirement is termed a Core course.
-

-
2. **Building Sciences and Applied Engineering (BS and AE) Course:** A course which 'informs' the Professional core subjects and should compulsorily be studied.
 3. **Elective Course:** Generally, a course which can be chosen from a pool of courses and are of two types:
 - i. **Professional Elective (PE)** which may be very specific or specialised or advanced or supportive to the discipline or subject of study, or which provides an extended scope
 - ii. **Open Elective (OE)** which enables exposure to some other discipline or subject, or domain or nurtures the candidate's proficiency or skill.
 4. **Employability Enhancement Courses (EEC)** which may be of two kinds: Employability Enhancement Compulsory Courses (EECC) and Skill Enhancement Courses (SEC)

PROGRAMME EDUCATION OUTCOMES

PEO 1: To provide high-quality architecture education for the holistic professional development of graduates

PEO 2: To expose graduates to all relevant facets of the CRIP industry at an early stage in their curriculum

PEO 3: To sensitise graduates to adapt to changing development scenarios and technology to encourage environmental sustainability

PEO 4: To nurture the values of teamwork, leadership and entrepreneurship in graduates, motivating them to venture into professional practice

PEO 5: To equip young graduates with state-of-the-art digital skill sets for professional employment and licensure

PROGRAMME OUTCOME (PO)

1. **Visualization and Representation Skills:** Ability to visualize forms and space and represent ideas through suitable medium effectively
2. **Theory of Design:** Have the necessary theoretical knowledge that shall assist in effective design
3. **Critical thinking:** Develop the ability to question, analyse, reason and evaluate things
4. **Socio-cultural and ecological sensitivity:** Be sensitive towards the ecological processes and socio-cultural context while designing
5. **Technological knowhow:** Understand the process of executing designs on site using appropriate technological knowledge
6. **Collaboration and teamwork:** Develop the ability to communicate, share and work in diverse groups
7. **Entrepreneurial Skills:** Readiness to start and grow one's practice in a professional manner
