MASTER OF BUSINESS ADMINISTRATION IN ADVANCED CONSTRUCTION MANAGEMENT (MBA ACM)

INTRODUCTION

ACM is an interdisciplinary MBA programme offered by the School of Construction. It builds on the concepts and practices of management, engineering, architecture, planning, law, information technology, and the social and behavioural sciences. The programme integrates theoretical knowledge with practical application.

The programme is designed to help technically qualified engineers, architects, and planners develop the managerial skills required to manage and execute large and complex construction and engineering projects while further enhancing their technical competencies. The curriculum is a judicious blend of theoretical and applied courses in general management and construction management, complemented by practical experience and project work.

The theoretical courses aim to strengthen students' understanding of the fundamental concepts and relationships that shape the dynamic environment in which managers operate. Applied courses, which constitute a major part of the curriculum, bridge theoretical learning with practical challenges in construction, infrastructure, and real estate development. Research oriented courses develop students' abilities to analyse problems systematically and prepare scientific reports. Special classes, workshops, and seminars further enhance students' computer application skills and their understanding of the role of information technology in managerial decision-making.

The programme is designed to prepare NICMAR University, Pune graduates to undertake professional responsibilities that demand a high level of proficiency in the application of the latest information technologies, people management, project finance, and international markets in the construction sector. The curriculum is reviewed periodically to incorporate the latest developments in the Construction, Real Estate, Infrastructure, and Project (CRIP) industry and to develop strong competencies across diverse areas.

VISION OF SCHOOL OF CONSTRUCTION

To be a globally recognized leader in construction management education and research, shaping the construction industry's future by producing highly skilled, value-driven professionals and entrepreneurs who excel in the built environment.

MISSION OF SCHOOL OF CONSTRUCTION

- Empowering students with state-of-the-art knowledge and practices to become effective construction managers and entrepreneurs, facilitating them to adapt evolving industry trends and remain at the forefront of their profession.
- Delivering rigorous and industry-relevant curriculum, fostering critical thinking, complex problem-solving, and hands-on learning through real-world projects and internships
- Emphasizing sustainable construction practices and environmental stewardship, preparing students to address the challenges of the built environment by hands-on training.
- Developing a strong sense of ethical and professional responsibility, encouraging students to uphold the highest standards of integrity and safety in their work.

PROGRAMME OUTCOMES

PO1: Able to write and present a substantial technical report/document, enabling them to interact with the stakeholders of construction projects.

PO2: Demonstrate an understanding of legal and ethical considerations in conducting research/investigation and construction work to solve complex practical problems in the construction Industry.

PO3: Recognize the need, and have the ability to engage in independent and life-long learning in the broadest context of technological changes in the construction sector.

PO4: Able to apply modern tools, techniques and procedures for optimal construction solutions.

PO5: Demonstrate professionalism, leadership qualities, and interpersonal skills to work collaboratively in multi-disciplinary project teams.

PO6: Relate various digital technologies for collaborative execution and management of construction projects.

PO7: Develop proficiency in people, planet, and profit management skills for sustainable and responsible business conduct.
PO8: Develop domain expertise in construction planning, procurement, execution, and digitalization to design innovative solutions to challenging complex issues.

PROGRAMME HIGHLIGHTS

The programme incorporates concepts and practices relating to advanced construction engineering and management. The first-year curriculum, in addition to specialised courses in construction management, includes general management courses to strengthen students' understanding of the critical aspects of the construction business. These courses provide insights into the fundamental concepts, processes and relationships that characterise the dynamic business environment in which a techno-manager operates.
In the second year, students are introduced to specialised areas of construction management, such as planning, procurement, digitalisation and technology, enabling them to develop in-depth knowledge of emerging trends and advancements in the construction industry through core and elective courses.
Students also gain practical exposure through site visits and summer internships. Project work undertaken under the guidance of faculty members develops their ability to analyse problems systematically and prepare scientific reports. Computer application skills, coupled with knowledge of quantitative methods, enhance students' analytical capabilities and support effective managerial decision-making in complex construction projects. Students are also trained in a range of software applications relevant to construction project management, planning and analysis.

DURATION AND ORGANISATION

The program duration is two years. It is organized into four semesters with suitable breaks. Semesters focus on classroom learning, hands-on software practice, managerial skills, practical construction workshops, an estimation and tendering lab, site visits, and research techniques and presentation skills. The summer internship is scheduled after Semester II, and electives are offered in semesters III and IV.

ACADEMIC REQUIREMENTS

The curriculum is organized into four semesters. The students are exposed to various theory courses, tutorials, and practical hands-on training. The students will complete the requisite credits to complete the PG Programme. The semester-wise distribution of course and credit is indicated in Table 1.

Courses

Typically, a two-credit course involves 30 hours of teaching. The courses may sometimes be of one credit or 3 to 4 credits depending on the content. The courses may include tutorial/practical components for hands-on training. The courses are divided into various categories to ensure the all-round development of students and provide adequate depth and breadth of knowledge. The courses may be divided into the categories such as General Core (GC), Programme Core (PC), General Elective (GE), Programme Elective (PE), Domain Elective (DE), Studio, Field Visit, Seminar, Lab, Practical, Workshop etc. In addition, the curriculum includes Massive Open Online Courses (MOOCs) and Self-Learning courses to foster lifelong learning. It also incorporates project-based courses such as social immersion, community services, study tour, capstone project, research project, mini or minor project or entrepreneurial project to facilitate experiential learning. For the Massive Open Online Course (MOOC), students must register, clear the exam conducted by the organizing body (such as SWAYAM or NPTEL etc.), and submit the certificate showing the % marks obtained to claim the credits.

Summer Internship

As part of the curriculum, each student has to undergo supervised field training of 6 credits after semester 2 with a reputed firm for 8 to 10 weeks. Given the on-the-job training, the student is also expected to perform specific regular duties on the project, as assigned by the respective organization.
Organizations for practical training are carefully selected from reputable firms. Based on their performance, students may receive Pre-Placement Offers (PPO). Essentially, the University seeks meaningful and supervised work experience for its students. Students may opt to work on assignment-based project topics. At the end of the summer internship, students must submit a report for evaluation.

PEDAGOGY

NICMAR University, Pune believes that the method of instruction may vary from course to course; therefore, it uses a host of pedagogical approaches such as case studies, lectures, group and individual exercises, class projects, studio, flip classes and simulation to enrich the overall programme delivery. Further, site and field visit, study tours, and expert talks are organized across different courses.

The total credits may be further classified into Lecture (L), Tutorial (T), and Practical (P). In the lecture sessions, students are familiarized with the course's concepts and knowledge. The tutorial components help students better understand the concepts through problem-solving, case analysis, or hands-on practice. The practical component is designed for exclusive hands-on training

ASSESSMENT

Course Evaluation

The course evaluation comprises two parts: The semester-end examination and the internal assessment. The weightage for the same is given below.

Evaluation	Weightage (%)
Term End Examination	50
Continuous Internal Assessment (CIA)	50

The term end examination is only for courses with an L component and shall be of 1 or 2 hours long.

Continuous Internal Assessment (CIA)

Continuous Internal assessment (CIA) is the continuous evaluation of a candidate's performance throughout the course and is conducted by the concerned faculty member. For a course with a Term-end examination, 50% weightage is assigned to the internal evaluation. This internal evaluation of candidates shall be carried out by at least three components, of which the Unit test component is mandatory. For all courses, the Unit test will carry 40% weightage of marks (20 Marks). This will be conducted during the tenth week of the semester, and the syllabus will cover material up to that point. The fifth week of the semester will be Internal Assessment 1 (IA1), and the last week of the term will be Internal Assessment 2 (IA2). The syllabus for IA1 will run until the fifth week, and the syllabus for IA2 will run from the Unit test until the last week of the semester (i.e., 15th week). For IA1 and IA2, the faculty can select any of the following components.

The IA1 and IA2 may have the following components:

- Class-participation
- Case analysis and presentation
- Quizzes/ Class test/Surprise test/Assignments (announced/unannounced)
- Term papers/Decision sheets/Project reports
- Research Paper Presentations/Viva
- Individual assignments/Group assignments/Presentations/Decision sheets
- Field project
- Role Play/Simulation
- Any other school/program/course-specific component

Summer internship and project work

The summer internship is assessed solely by the internal faculty. A summer internship carries 100 marks and is assessed during the third semester. The weightage assigned is 40% for report writing, 40% for presentation and 20% for question answers.

Students' project work (Seminar and Interim assessment) is evaluated by the assigned guide and an internal faculty (this is done at the end of the 2nd and 3rd semesters). The final viva voce is evaluated by the guide and an industry expert or by faculty members from the other institute.

Failure Cases

NICMAR University, Pune's programmes are highly demanding, and students of a high caliber are admitted through a rigorous evaluation. Consequently, every student is expected to complete the procedure in all subjects and submit their project work promptly unless there are legitimate grounds for delay. A student is declared 'Pass' in a course if they score at least 40% marks in internal and semester-end examinations individually.

If any student fails to obtain the minimum passing marks in the internal or semester-end examination, they will be declared fail. Such a student will have to reappear for the examination by paying the re-examination fee of Rs. 2000/- per course and obtaining the minimum passing marks to qualify.Similarly, non-submission of project work on time is not acceptable. A candidate is not considered to have completed the programme

unless they submit the project report, which is judged satisfactory by the guide and awarded the required ratings by the examiner/s appointed for the purpose.

If the students wish to have their examination paper (s) re-evaluated, this can be done on payment of the re-evalution fee of Rs. 1000/- per course.

Grading System

Evaluation will be done on a semester basis. A Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA) will be calculated at the end of every semester. Students should complete all courses to meet the program requirements.

Award

On successful completion of all the pre requisite requirements, the eligible student will be awarded the entitled with specialization if any.

Policy for Multiple Entry and Exit in Academic Programmes

To bring major reforms in the Higher Education System, National Education Policy (NEP) 2020 has provided a system of multiple entry and exit in academic programs. In this system the students shall be free to choose their programs and academic pathways in Higher Education that will support the Academic Bank of Credit (ABC). Multiple Entry and Exit System (MEES) are the fundamental recommendations of University Grants Commission (UGC), to encourage flexible learning in Higher Education Institutions (HEIs) which is important for lifelong learning of the students and to choose their academic path leading to the award of certificate, diploma and degree. Keeping the spirit of NEP 2020, our programme provides an opportunity to student to exit after one year with a post graduate diploma, provided the student has fulfilled the minimum credit requirements as per NEP 2020. **DIRECT** entry to the second year is possible based on the evaluation of documentary evidence (including the academic
record). This is further subjected to a student meeting programme admission regulations and minimum equivalence credits with NICMAR programme. Students completing a four-year Bachelor's programme with Honours/Research, may also be admitted to the second year of the Master's programme subject to fulfilment of above conditions.
