Post Graduate Diploma in Ready-Mix Concrete Management

(PGD RMCM)

INTRODUCTION:

Ready-Mix Concrete (RMC) technology is rapidly emerging as a key driver in the construction industry, propelled by urbanization, infrastructure development, and the rising demand for high-quality, durable building materials. NICMAR University, a leader in construction management education, is well-positioned to introduce a specialized Postgraduate Diploma (PGD) in RMC Technology. This program is designed to meet the industry's growing need for skilled professionals in RMC production, quality control, and sustainable concrete practices.

Industry Growth & Demand: The Indian RMC market is projected to grow at a compound annual growth rate (CAGR) of 8% from 2023 to 2027, driven by the following factors:

- The government's increased focus on infrastructure projects, including smart cities, highways, and affordable housing schemes.
- Growing preference for high-quality, durable construction materials to enhance project efficiency and reduce labor-intensive processes.
- The urbanization boom and increasing environmental concerns led to adopting sustainable building practices.
- By 2024, India is estimated to have approximately 2,500 RMC plants, primarily concentrated in urban and semi-urban regions, where construction activity is at its peak.

This program by NICMAR University aims to equip professionals with the expertise to address these industry trends and challenges effectively.

VISION OF SCHOOL OF ENGINEERING

To emerge as a globally recognized school for promoting innovation and sustainability, equipping students with the knowledge and skills to tackle complex modern-day challenges and transforming them into holistic professionals and responsible citizens.

Mission OF SCHOOL OF ENGINEERING

We at the School of Engineering are committed to achieving the vision by,

- M1** Provide transformative education by blending academic excellence with hands-on experience
- M2** Promote a culture of interdisciplinary research, Industry Interaction, sustainability, quality and ethical values.
- M3** Aim to nurture creative thinking in entrepreneurial and intrapreneurial endeavors.
- M4** Prepare industry-ready professionals by enhancing industry-institute interactions.

PROGRAM EDUCATIONAL OBJECTIVES (PEOs):

The proposed PGD in Ready-Mix Concrete Technology aims to:

PEO1: Provide in-depth theoretical and practical knowledge of RMC technology.

PEO2: Develop management and leadership skills for effective plant operations and project execution.

PEO3: Enhance student employability in the RMC industry by integrating industry exposure, internships, and project work.

PEO4: Promote sustainability and innovation in concrete technology.

Students shall be employable in the RMC Sector as RMC Plant Managers, Production Engineers, Quality Control Engineers, Project Managers for Infrastructure Projects, and Sustainability and Environmental Specialists in Concrete Production.

Students shall acquire the skill sets of expertise in concrete mix design and plant operations, proficiency in quality assurance and safety protocols, ability to implement sustainable production practices, and leadership in managing teams and projects.

PROGRAMME SPECIFIC OUTCOMES (PSOs)

PSO1: Able to write and present a substantial technical report/ document, enabling them to interact with the stakeholders of RMC projects.

PSO2: Apply the theory and practices of operation, maintenance, managing resources and execution of the RMC plant.

PSO3: Apply digital technologies for operation, maintenance, managing resources and execution of the RMC plant.

PSO4: Demonstrate professionalism, ethical approach, and interpersonal skills to work in multidisciplinary project teams

PSO5: Develop proficiency in Project Communications and Financial skills for business conduct.

DURATION

The programme duration is of one year and is organised into two semesters. The internship is embedded in the second semester.

ELIGIBILITY

Candidates with a regular bachelor's degree in civil / mechanical engineering or related field from a recognized institution/university are eligible. Candidates seeking admission are required to have secured a minimum of 50% aggregate marks (45% for the candidates from the reserved category) at the graduation level. Final year eligible graduating students can also apply. However, such candidates must have completed (passed) their Graduation before the commencement of programme.

ADMISSION PROCEDURE

Selection of students is made by the selection committee. Those interested in admission to the programmes offered by the NICMAR University, Pune may apply online, pay fees and upload documents through our website. All specified documents must be submitted. Incomplete applications will not be considered.

Students should be proficient in computer applications for all aspects of their work. He/she should be familiar with MSOffice-Excel etc. He/she should be comfortable with the Internet and multimedia systems. Every student gets hands-on experience with the software. The skillful and creative application of tools and techniques of information technology and the use of computers in the practice of his/her profession are the trademarks of a NICMAR University graduate.

iii. Internship

As part of the curriculum, each student has to undergo supervised field training of 12 credits during semester 2 with a ready-mix plant. Three-day Internship at the site and two-day classroom teaching/ or online sessions is offered to the students. During this period, they may be trained in ready-mix plant management practices such as planning, execution, progress assessment, site management, reporting, etc. The training being on the job, the student is also expected to perform specific regular duties on the project, which the respective organization may fit.

Organizations for practical training are carefully selected from among the reputed firms. A committee of students assists the University in arranging for their summer internship. At the end of the summer internship, students must submit a report and present it to the faculty assigned.

iv. Project Work

Each student will work on a project and prepare a project report on a topic assigned to him/her. The project topics should be decided before the start of the second semester and approved by the University. This work will be done after class hours and is expected to take at least 120 hours. The project report is to be submitted by the end of the second semester.

PEDAGOGY

NICMAR University believes that the method of instruction to maximize learning may vary from course to course. Therefore, it uses a host of pedagogical approaches in different courses, such as case studies, lectures, group and individual exercises, class projects and simulation of the business environment, to enrich the overall programme delivery. Site visits are organized as and when required.

ASSESSMENT AND EVALUATION

The course assessment and evaluation comprise two parts:

The performance of the learners shall be evaluated through semester-end examination and internal assessment. The weightage for the same is given below (courses with L component).

TABLE 1

Evaluation	Weightage (%)
Internal Assessment.	50
Semester End Examination	50

AWARD

Eligible students will be entitled to a postgraduate diploma in RMC upon successful completion of one year. Students need to fulfill all the requirements as per the University's academic regulations.

REGULAR TEACHING FACULTY

Faculty is the foundation on which NICMAR University programs are designed to grow. Therefore, careful attention is paid to attracting the best talent from the academic world and the industry. Expert faculty members of the University teach the courses, eminent practicing managers from leading engineering and construction firms from all over the country, and visiting experts from Indian and foreign universities and international organizations.

STUDENT DEVELOPMENT

NICMAR University has several schemes to provide full or partial financial support to various student activities. The University firmly believes that co-curricular and extracurricular activities significantly contribute to the all-round development of its students.

ABOUT NICMAR UNIVERSITY, PUNE

NICMAR University, Pune is established under State Private University Act. (Government of Maharashtra Act. No. XXXVI of 2022). University is situated at Balewadi, 14 kilometres away from the Pune Central Railway Station and 7 kilometres from the Savitribai Phule Pune University and along the Mumbai-Bangalore expressway. It has over 4,71,853 square feet built up area and more 1,25,000 square feet area under construction on a 10-acre plot of land built using the latest materials and technologies and is equipped with state-of-the-art facilities. The campus buildings blend harmoniously with the landscaped greenery all around.

The University is having barrier-free environment for the independence, convenience and safety of all persons including people with disabilities. The physical infrastructure of the campus includes classrooms, seminar rooms, tutorial rooms, mini auditorium, workshops, engineering laboratories, student common room, multi-purpose hall, placement GD room, placement PI room, placement corporate room, faculty cabins, offices, placement office, student lounge, boys' and girls' hostels, executive hostel, warden and lady warden residence, a library with stack areas, reference section and documentation centre, scholar's cabins, computerised catalogues, inter-campus online library, computer centres, 24-hour internet and e-mail facility, a guest house, a modern and well-equipped kitchen, students, faculty and staff dining halls.

Other facilities include a photocopying centre, solar water heating, sewage treatment plant, vermiculture, rain water harvesting system, lift facilities for all hostels, cafeteria, generator backup to all the buildings, doctor, dispensary, first-aid kits, community hall, indoor and outdoor recreation infrastructure i.e., football ground, basketball court, tennis court, badminton court, volleyball court, gymnasium (separate for boys & girls), recreation hall with table tennis,

carrom boards, chess boards, T.V. with dish connection, students' parking facility (two wheeler), stationery and general store, xerox services, laundry facility, multipurpose open court (students' play area of 10000 sq.ft. approx.), auditorium having 1000 seating capacity, classroom, syndicate room, computer lab, amphitheatre, and basement parking etc. The campus is equipped with CCTV and round the clock security services.

ANTI-RAGGING POLICY OF NICMAR UNIVERSITY, PUNE

As per the directives issued by the Hon'ble Supreme Court of India and the University Grants Commission (UGC), ragging is a cognizable and punishable offence and is totally banned in or out of the University. SUPPORT SERVICES

i. Department of Information Technology

Computer centre at NICMAR University Pune, has sufficient number of computers with a state-of-the-art AR VR studio (Augmented Reality and Virtual Reality), Learning Management System(LMS), leading application packages like Microsoft Project Management, Oracle suite of Project Management packages including Contract Management, Enterprise Portfolio Project Management, Professional Project Management, and Contractor and Risk Analysis; Autodesk suite of Building Information Modeling comprising 24 software products including, AutoCAD, Revit, Navisworks, Infraworks etc.; Project Wise 365 and 15 software products from Bentley Systems India Pvt. Ltd., Risk Management Software packages including, @Risk, Evolver, Stat Tools, Top Rank, Neural Tools, Precision Tree, CANDY, Microsoft Dynamics ERP, Highrise Construction ERP; Orell Digital Language Software package is available for students to develop proficiency in English; TURNITIN for plagiarism check, Prochain for Critical Chain Project Management, VisiLean for Lean Construction & BIM Management, CalQuan for quantity calculation and cross section drawing for linear projects and HDM-4 for checking engineering and economic viability of road projects, etc.; Internet and e-mail facilities are to all students. The centres are open from 9.00 a.m. to 5.30 p.m. Students get hands on practice under the able guidance of qualified and experienced faculty members. The campus of NICMAR University at Pune is equipped with Video Conferencing System, interactive screens, Construction 4.0 lab and virtual classroom platforms such as MS Teams, Webex and Zoom to run online classes and other online activities. Biometric Attendance.

ii. Library

The NICMAR University library is designed to support the students, faculty & research scholars. It is a specialized library in the area of Construction Management, Project Management, Real Estate Management & Infrastructure Development. In addition, the library provides knowledge resources in a variety of Management & Engineering subjects such as: Information Technology, Engineering, Environment, Social Sciences, all areas of Management, Smart Cities, Entrepreneurship, Architecture, Planning, Taxation, Law etc.

The library is the hub of the academic life of the NICMAR University campus. Housed in spacious halls on the first floor of academic block, the library is well stocked with textbooks, technical journals, periodicals and electronic resources. It holds a collection of more than 28000 titles, comprising over 25700 Books, Periodicals, Standards, Cases, Technical Notes, Bound Volumes of Periodicals, Theses & Audio-Visual Materials. It also subscribes to electronic resources which include Scopus – The Citation Database, PROQUEST ABI

Inform Complete (9800+ Titles), ASCE Journals (41 Titles), ASCE Proceedings (875 Titles), SCIEDIRECT – Business Management & Accounting (121 Journals), TAYLOR & FRANCIS Online (80 Journals), SAGE – Urban Studies & Planning (42 Journals), SAGE – Management (22 Journals), PROQUEST e-Book Central – Business & Engineering (68,500+ Books), ELSEVIER E-Books (155 Titles), PEARSON E-Books (54 Titles), and MCGRAW HILL E-Books (35 Titles). Other titles include 'All India Reporter', 'Economic & Political Weekly' and Economic & Business databases of M/s CENTRE FOR MONITORING INDIAN ECONOMY (CMIE) including ProwessIQ, Industry Outlook, Economic Outlook, States of India and the CapEx. It also subscribes to the Anti-plagiarism software 'Turnitin – Originality Check' for the faculty.

iii. Internet and E-mail

Dedicated 1+ Gbps Internet bandwidth for 24X7 is provided to students through Wired LAN & WiFi with a backup provision. Each student is provided with the University e-mail ID for academic communications alongwith Office 365 Access.

iv. Classrooms

NICMAR University has large, medium and syndicate capacity classrooms which are well-equipped with public audio system, Interactive Display Panel, LCD projectors, computers with internet connections and are fully air-conditioned.

v. Extra-curricular Activities

Students' training at NICMAR University, Pune goes beyond the confines of classroom and curriculum. In order to foster a holistic development of students, the University supports and encourages its students to plan, organise and participate in various co & extracurricular activities. The Student Council represents the general body of students and organises various techno-managerial, sports and cultural events, and celebrates all the major festivals throughout the year, involving the student clubs and student volunteers.

Some salient features are as follows:

- Well-equipped, state-of-the-art facilities exist for indoor and outdoor sports such as badminton, table tennis, basketball and football etc.
- Students are encouraged to participate in intra and inter-college co-curricular, cultural and sports competitions.
- Various intra and inter-college events like Udbhav, Sanskriti, Chakraview, Teknikala, NICMAR Premier League, Spardha, E-Summit, Academic Conclave, and Reverbs, etc. are organised for the development of co & extra-curricular skills of students.
- Students also bring out in-house magazines, newsletters and similar publications.
- Students of NICMAR University pursue their varied hobbies and interests after academic hours through different special interest clubs actively functional on the campus. Various activities are organised by the Music club, Photography club, Dance club, Technical club, Movies and Dramatics club, Sports club, Literary club, R & D club, Start-up club, Design club and Fashion club throughout the year. All these clubs are managed by students.
- Separate well-equipped gymnasias are available for girls and boys, assisted by qualified sports supervisors.
- An international sports stadium is just across the road and students can access swimming pools, gymnasias, field tracks and other facilities on payment basis.

Thus, the University leaves no stone unturned to ensure that the students have a memorable and enriching campus life contributing to their all-round development.

Semester 1 Courses

Advances in Concrete Technology (2 credits)

Objective: This course aims to introduce students to state-of-the-art innovations and modern advancements in concrete technology to enhance the performance, durability, and sustainability of concrete structures.

Syllabus Content: Topics include high-performance concrete (HPC), ultra-high-performance concrete (UHPC), self-compacting concrete (SCC), self-healing concrete, and nanotechnology applications in concrete. It also covers advanced admixtures, fiber-reinforced concrete, and modern curing methods. Students will learn to apply these technologies to practical challenges in construction and infrastructure projects.

Concrete Materials and Properties (2 credits)

Objective: To develop a deep understanding of the materials used in concrete and their influence on concrete's mechanical, physical, and chemical properties.

Syllabus Content: This course covers the types of cements, aggregates, and supplementary cementitious materials (SCMs) like GGBS, fly ash, and silica fume. Rheology and workability, setting time, and strength development of concrete are explored in detail, along with an emphasis on durability factors like permeability, corrosion resistance, and sulfate attack.

RMC Plant and Machineries (2 credits)

Objective: To equip students with knowledge of plant operations, machinery, and technology used in ready-mix concrete production.

Syllabus Content: This course examines batching plants, their components, automation systems, and the technology used for material handling and storage. Topics include weigh batching, conveyors, mixers, concrete transportation systems, and maintenance schedules to ensure efficient plant operation.

Quality and Safety Management (2 credits)

Objective: To instill the importance of quality control and safety practices in RMC production and ensure compliance with industry standards.

Syllabus Content: Topics include statistical quality control methods, on-site testing procedures, and ISO standards for quality and safety. Risk assessment, hazard identification, and mitigation strategies are emphasized, alongside case studies of safety incidents and lessons learned.

Business Communication (1 credit)

Objective: Develop effective communication skills for professionals working in the RMC industry, focusing on business and interpersonal communication.

Syllabus Content: The course includes professional writing (emails, reports, proposals), verbal communication techniques, presentation skills, conflict resolution, and negotiation strategies tailored to business scenarios.

Product Marketing and Strategies (1 credit)

Objective: Introduce marketing principles and strategies to position RMC products effectively in competitive markets.

Syllabus Content: This course covers fundamentals of marketing, customer segmentation, branding, and creating competitive strategies. Students will learn pricing models, market research methods, and developing promotional campaigns specific to RMC products.

Material Testing and Concrete Mix Design (1 credit)

Objective: Provide hands-on experience in testing materials and designing concrete mixes to meet specific performance requirements.

Syllabus Content: Laboratory testing of aggregates, cement, and fresh concrete properties. Principles of mix design (IS, ACI, and BS methods), trial batching, and optimization techniques for strength, durability, and workability are explored.

Fundamentals of Mechanical & Electrical Systems (2 credits)

Objective: Impart basic knowledge of mechanical and electrical systems used in RMC plant operations to ensure smooth functioning and maintenance.

Syllabus Content: This course covers the working principles of pumps, motors, compressors, and conveyors. It includes electrical control systems, circuits, and troubleshooting techniques for machinery commonly used in RMC production.

Human Resource Management (1 credit)

Objective: To develop an understanding of managing human resources effectively in the RMC industry to optimize productivity and workplace harmony.

Syllabus Content: Workforce planning, recruitment, and retention strategies are covered, along with training, performance appraisal systems, and leadership development. It also includes insights into conflict resolution and team-building exercises.

Project Work (6 credits)

Objective: Allow students to apply their knowledge to real-world problems and projects related to the RMC industry.

Syllabus Content: Students identify industry challenges, conduct research, analyze data, and develop innovative solutions. They prepare detailed project reports and present findings, simulating real-life professional scenarios.

Semester 2 Courses

Accounting and Cost Management (2 credits)

Objective: Introduce students to financial and cost management concepts essential for efficient RMC operations.

Syllabus Content: Topics include the basics of accounting principles, cost analysis, budget preparation, cost control measures, and profitability optimization. Real-life case studies help students relate theoretical knowledge to practical financial decision-making in RMC operations.

Sustainable Practices in RMC Production (2 credits)

Objective: To educate students on eco-friendly and sustainable practices in RMC production to minimize environmental impact.

Syllabus Content: Recycling concrete waste, using industrial by-products, energy-efficient processes, and reducing carbon footprints are explored. The course emphasizes regulatory frameworks and green certifications like IGBC or LEED.

Planning and Execution for RMC Applications (2 credits)

Objective: Teach students the skills required to plan, execute, and manage RMC applications in construction projects efficiently.

Syllabus Content: Topics include project scheduling, logistics, resource allocation, and on-site quality assurance. Case studies of successful RMC applications and common challenges in execution are discussed.

Production and Operation Management (2 credits)

Objective: Equip students with skills to manage production and operational processes in RMC plants effectively.

Syllabus Content: Production planning, lean manufacturing, workflow optimization, and process improvement are included. The course highlights the role of technology and analytics in optimizing operations.

IT Applications (2 credits)

Objective: Familiarize students with the use of IT tools and software for streamlining RMC operations and project management.

Syllabus Content: Topics include ERP systems, inventory management software, data analytics for production monitoring, and tools for scheduling and reporting. The practical component involves working with industry-standard IT tools.

Internship (Work-Based Learning) (12 credits)

Objective: Provide real-world exposure to RMC operations, enhancing students' practical knowledge and industry readiness.

Syllabus Content: Students undergo internships at RMC plants, gaining insights into daily operations, problem-solving, and quality assurance. They are required to document their learning and present an internship report summarizing their experience.
