BACHELOR OF ARCHITECTURE

INTRODUCTION

NICMAR was established as an autonomous, non-government, not-for-profit academic body, founded in September, 1983 as a Society and a Public Charitable Trust. Also, NICMAR University, Pune (NUP), supported by the trust is now recognised as State Private University by the University Grants Commission. NICMAR University Pune Act (L. C. Bill No. of 2022) was passed by Maharashtra State Government on 16th March, 2022 and appeared in “Maharashtra Government Gazette” on 12th May 2022 (Mah. Act No. XXXVI of 2022).

NICMAR University, Pune (NUP), draws its pedagogy from the mindful perception of the syllabi of pioneering Architectural Institutions in India, bearing in mind the contemporary changes that would have to eventually be adopted, in wake of the era of the national education reforms in the country.

Architecture is a Meta discipline, a critical attitude, not merely an empirical discipline like engineering that needs/seeks/works with data. Nevertheless, architecture deals with fundamental issues of users, cities and societies, and not only materials, processes and aesthetics. It questions the presumed, and seeks new and contemporary meanings.

There is a need for redefining the perception of Architectural education today. A student of architecture is not only a learner, but also a producer of knowledge. The student’s tools include a critical, evaluative, conceptual mind, the ability to interconnect concepts/ facts, to use theory and argument and seek a higher level of explanation in the process of learning and its application to design. The student’s initial challenges shall be to differentiate between objective and accepted reality, to appreciate architecture as a cultural process, and to perceive change as a series of discontinuities, more than cause/effect transitions. Only then can the student become relevant in today’s world rather than mindlessly repeat the dogma of the past.

VISION AND MISSION

Vision

Through quality teaching-learning processes and research, School of Architecture and Planning aims at developing highly qualified and committed new-generation professionals equipped with comprehensive domain knowledge along with the necessary techno-managerial and research skills. The graduates of the school would serve as leaders in creating and managing sustainable built environments in India and globally through excellence in skills, knowledge, behaviour and capabilities.

Mission

1. To impart innovative and community focused-education to train new-generation professionals competent in immensely complex and challenging built environments in the present context.
2. To serve communities and improve quality of life through creative and pioneering practical solutions and research in the built environment.
3. To be a Centre of Excellence in architecture and planning, guided by the principles of sustainability and resilience.
4. To inculcate professional ethics, values and entrepreneurial attitude addressing needs of industry and society.

PROGRAMME OBJECTIVES

The programme aims:

- To impart a critical understanding of human habitat by sensitising the students to various socio-cultural, political and environmental factors that shape it.
- To inculcate design values and principles which enable the conceptualisation of an architectural project.
- To develop the skills of visualization, representation and communication which assist in handling the complexity that the profession demands.

PROGRAMME PHILOSOPHY

The programme aims to nurture creative and responsible architects equipped with design excellence, technological competence, and a holistic understanding of the built environment. It seeks to produce professionals who can address contemporary global challenges of sustainability, resilience, social equity, and cultural continuity through innovative and context-responsive design solutions.

- **Leveraging NICMAR's Legacy in CRIP (Construction, Real Estate, Infrastructure, and Project Management):**
  The B.Arch. programme integrates architectural design education with technical, managerial, and entrepreneurial perspectives, enabling students to engage effectively with the entire project life cycle—from conceptualization and design to execution and management—within national and international contexts.
- **Learning through Integrated Practice:**
  The curriculum emphasizes a 'learning by doing' approach, combining theoretical knowledge with hands-on studio work, field explorations, workshops, industry collaborations, digital simulations, and research-based projects. This experiential learning process strengthens creativity, critical thinking, and professional problem-solving abilities.
- **Creating Future-Ready Professionals**:
  The programme aspires to produce globally competent, ethically grounded, and industry-ready graduates with strong communication, teamwork, leadership, and entrepreneurial skills—capable of contributing innovatively to sustainable architectural practice and the evolving needs of the built environment sector.

PROGRAMME EDUCATION OUTCOMES (PEOs)

The Graduates will be able to:

- Develop comprehensive architectural knowledge and contextual understanding to address real-life built environment challenges.
- Demonstrate critical and creative design abilities integrating environmental, technological, and cultural dimensions.
- Exhibit sensitivity toward sustainable, inclusive, and responsible architectural practices.
- Display professional competence, ethics, teamwork, and leadership for effective practice in interdisciplinary settings.
- Pursue lifelong learning through digital proficiency and research aptitude, fostering adaptability and continuous professional growth.

PROGRAMME OUTCOMES (POs)
