ABOUT NICMAR

National Institute of Construction Management and Research (NICMAR) is the pioneer institute in imparting quality education and conducting research in the areas of Construction, Real Estate, Infrastructure and Project (CRIP) Management.

NICMAR also imparts training to CRIP professionals, and promotes professionalism and skill development at all levels of the CRIP industry. NICMAR's objectives include undertaking special CRIP projects, collaborating with national and international organisations & academic institutes for research and training, disseminating knowledge through seminars / conferences, publishing relevant literature, and offering consultancy services to the CRIP organisations.

ABOUT ICCRIP 2019

International Conference on Construction, Real Estate, Infrastructure and Project Management (ICCRIP) is NICMAR's flagship academic event. This conference aims to create a platform for eminent professionals, CRIP practitioners, academicians, research scholars and students to share their knowledge and innovative ideas that can lead to a holistic development of the CRIP sector, and education in CRIP management. After the resounding success of the earlier three editions of ICCRIP, NICMAR brings to you its 4th edition, ICCRIP 2019. This year the conference focuses on the theme: **Disruptive Innovations in the CRIP Sector**.

Disruptive innovations provide opportunities for innovation driven growth. Technologies such as Blockchain, 3D Printing, Smart Contracts, Robotics, BIM, Big Data Analytics and Artificial Intelligence have the potential to bring about a paradigm shift in the processes and practices of the CRIP sector. It is expected to significantly alter the roles, power positions and operational methods. These changes would help organisations in the CRIP sector to achieve higher benchmarks in productivity, sustainability and project success.
