ABOUT INSTITUTE:

NICMAR, with a 41-year legacy of excellence in construction management education, has earned its reputation as India's leading institution in the Construction, Real Estate, Infrastructure, and Project Management (CRIP) sectors. Renowned for its rigorous curriculum and innovative pedagogy, NICMAR has built a robust global alumni network of over 37,000 professionals, setting benchmarks for industry leadership and academic distinction. Building on this foundation, NICMAR Delhi-NCR was established and approved by AICTE in 2024, and designed to foster excellence in learning and development. Equipped with state-of-the-art infrastructure, the campus offers two flagship programs—PGDM in Advanced Construction Management (ACM) and PGCM in Quantity Surveying and Contract Management (QSCM)—tailored to industry needs. These programs focus on advanced technical skills, project management, and sustainability, producing graduates ready to lead and innovate in the construction and allied industries.

ABOUT AICTE'S ATAL PROGRAMME

AICTE Training and Learning (ATAL) Programme is an initiative by AICTE which aims at empowering faculty to achieve goals of Higher Education such as access, equity and quality. The objective is to create an Academy that will coordinate and support the delivery of superior technical education across the country. Additionally, it helps technical colleges advance research by using information and communication technology, which in turn equips technical instructors and technicians to support entrepreneurship and innovation. It was felt Training, with latest tools and technologies is vital to keeping an institute competitive and more productive.

AICTE-TEACHING AND LEARNING (ATAL)

The main objectives of the ATAL Academy are

- To plan and help in imparting quality technical education in the country.
- To support technical institutions in fostering research, innovation and entrepreneurship through training in various emerging areas.
- To utilize SWAYAM platform and other resources for the delivery of trainings.
- To stress upon empowering technical teachers & technicians using Information & Communication Technology (ICT).
- To support policy makers for incorporating training as per requirements.

- To provide a variety of opportunities for training and exchange of experiences such as workshops, orientations, learning communities, peer mentoring and other Faculty Development Programs.

ONLINE FACULTY DEVELOPMENT PROGRAM OBJECTIVES

It will help Faculty, Students to equip a comprehensive understanding of Sustainable Practices in the Construction, Real Estate, Infrastructure, and Project (CRIP) sector:

- Session will explore innovative materials, green building practices, energy-efficient designs, and digital transformation in construction, etc.
- This will help to examine how digital technologies and sustainable design practices can work together to reduce environmental impact in the construction sector, and to identify actionable strategies that lead toward achieving net-zero emissions in the urban built
