A lecture on Anti-drug addiction/ awareness by Dr V S Gideon on 08-10-2025

Dr. V S. Gideon De-addiction Therapist and Managing Director of Living Sober.

Dr. V. S. Gideon holds a Post graduate degree in counseling and has completed credits from EACC and IC & RC, IADCC (International Alcohol & Drug Counselors Trust for India). He is specialized in treating alcoholics and drug addicts and has an immense experience, more than two decades, in the field of addiction recovery. He had been associated with few international reputed rehabilitation centers, treating alcoholics and drug addicts. He appears extensively on various local television channels, educating about the disease of addiction and regularly conducts sensitization programs for college students, government and private employees.

Addiction is defined as a chronic, relapsing disorder characterized by compulsive drug seeking and use despite adverse consequences. It is considered a brain disorder, because it involves functional changes to brain circuits involved in reward, stress, and self-control.

Since, Addiction is a treatable, chronic medical disease involving complex interactions among brain circuits, genetics, the environment, and an individual's life experiences. People with addiction use substances or engage in behaviors that become compulsive and often continue despite harmful consequences. Prevention efforts and treatment approaches for addiction are generally as successful as those for other chronic diseases.

Therefore, Dr. V. S. Gideon's knowledge and vast experience can greatly benefit the society in:

- Sensitising about the Disease of addiction
- Adverse effects of the Disease of addiction
- Prevention and treatment methodologies
- Counselling the victims and the family members
- Motivating the victims in building their career
