## **INTRODUCTION**

Construction is one of the most dangerous occupations in India, causing injuries, diseases and fatalities. Today, health, safety and the environment are an integral part of any industry, whether manufacturing or construction industry. Safety, health and environment systems must be designed and incorporated and employees need to be trained adequately, checks and counterchecks be made to ensure implementation. Health, safety and the environment are interrelated and affect each other. If employee health is not given due regard, it may lead to an accident. If the environment around the workplace is polluted by industry, this will affect the health of the employee and in turn affect production. Health, safety and the environment are important for sustainable development in modern societies, especially in workplaces where accidents and hazards occur more frequently. The adaptation of health, safety and environmental practices demonstrate the readiness of the industry to minimize the frequency and severity of work-related accidents, and damage to property and the environment.

## **OBJECTIVES**

The Programme is designed to fulfill the following training objectives:

- To enhance the knowledge of construction professionals in the area of health, safety and environmental practices in the Construction Sector
- To provide practical guidance on a legal, administrative, technical and educational framework for safety, health and environment in construction

## **TARGET GROUP**

Working professionals having 1-4 years of experience in the field of construction

## **WHO WILL BENEFIT**

- Line Managers
- Safety Supervisors
- Contractors & Site Engineers
- Safety officers
- Students of Engineering & Architecture

## **CERTIFICATE**

Participants will be awarded NICMAR's Executive Education Certificate

## **PROGRAMME COORDINATOR**

**Dr. S.V.S. Raja Prasad**  
**Sr. Associate Professor**  
**NICMAR, Hyderabad**

With a very vast 20+ years of industry experience and 14+ years of teaching experience, he is a subject expert in Construction Safety, Industrial Safety, Occupational Health, Quantitative Techniques, and Research Methodology.

He has pursued B.Tech (Mech.) from SVU-Tirupati; M.E. (Industrial Engineering) from Andhra University, AP; PG Diploma in Safety, and attained Doctorate in Mechanical Engineering from KLU, AP. Dr. Raja Prasad is awarded the “Teaching Excellence Award” 03 times for his excellence in teaching regular PG students.

### **DATES**

**18-19 March 2023 (Saturday & Sunday)**

### **VENUE**

**NICMAR, Hyderabad**

### **GENERAL INFORMATION ON FACULTY**

**NICMAR faculty and experts from the industry**

### **HOW TO REGISTER**

- Fill in the Registration Form enclosed.
- NEFT / RTGS details are provided in the registration form.
- Demand Draft, drawn at par, in favour of NICMAR, payable at Hyderabad
- Mail the Registration Form along with the Draft to the address given.
- Email the registration form along with payment confirmation details to [mdp.hyd@nicmar.ac.in](mailto:mdp.hyd@nicmar.ac.in)
